11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended, ☒ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:

(a) By completing items 8 and 15, and returning 2 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment your desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

15B. CONTRACTOR/OFFEROR

15C. DATE SIGNED

16B. UNITED STATES OF AMERICA

16C. DATE SIGNED

(Signature of person authorized to sign)

(Signature of Contracting Officer)

The purpose of this amendment is to answer questions posed by a potential offeror. The questions and answers are as follows:

1. Will multiple awards be made?

As indicated in Note 2 to Section B of the solicitation, multiple awards are possible and may be made on a task by task basis. Any decision to make multiple awards would be dictated by the quality of proposals received as judged by the evaluation criteria, and availability of funding.

2. Is this solicitation open to geophysical techniques other than those being incorporated into MTADS?

Yes. Although NRL is conducting research and development programs using the MTADS, or extensions thereof for which it has been funded, new methods for UXO detection and classification are sought. It is expected that the successful offeror for Task 1 would support both the existing sensor types and any proposed new concepts. It is anticipated that any new techniques developed, whether they be sensors or deployment methodologies, would eventually be incorporated into the MTADS program.

3. Where in the solicitation, or under which tasks, could new approaches be submitted that did not include MTADS or electro-magnetics?

Task 1.

4. The date and time for the receipt of proposals remains 16 JUL 01 at 4:00 p.m.
